Winter 2019 Week 5 February 11

Hello League Shooters,

For Week 5 on February 1, we had 36 competitors shooting 48 matches. The Pistol League Standings are at the bottom of the newsletter.

**Make-Ups**

Eligible make-up shooters for Week 5 are:

Week 5 Make Up Matches		
Small	Medium & Large	
Michael Williams	Jeff Urquhart	Ben Urquhart
	Damon Whitted	Mike Willimas (L)
	Rick McKibben	Michael Williams
	Matthew Roberts	
	Justin Bork	
	Dennis Bork	

The make-up date for this match is **Monday, February 18** following the last relay of the regular match. **If you do not shoot the make-up on this date, you will forfeit the match.**

**Week 6 COF**

Next week we are resurrecting a COF we haven't used I quite a while. Shooters simulate shooting from cover and we have to negotiate barrier to engage their targets. **50 rounds of ammo will be required.** [Click here to see the course of fire link for details.](#)

**Week 4 Results**

**Course of Fire**

This COF used two of the standard five-bullseye targets fired in five 5-round sets each using the 3-second speed drill. In this technique the shooter, on signal, must go from ready and fire a single round at the target in 3 seconds. The signal was provided by our Random Target Illumination (RTI)<sup>™</sup> system which can light individual targets in a programmed sequence. In this COF, the RTI lights each target for 3 seconds, then goes dark again for 3 seconds. The shooter has the 3-second illumination interval to engage the target, then return to ready when the target goes dark to wait for the next light.

On Target 1, all 5 rounds in each set were fired at a single bullseye (top left, top right, center, bottom left or bottom right). On Target 2, between each shot (dark interval) the Range Commander randomly called out the bullseye to engage next. Here are the average scores:

Week 5 Averages by Target

Not surprisingly, shooters new to the league struggled with this technique. The first tendency is to shoot as quickly as possible, but sooner or later, shooters realize that the light is still on long after they have fired. Most get the hang of it by the last few sets on T1 and do slightly better on T2 as the results show.

**Weekly Top Scorers**

Congratulations to our top scorers. No perfect scores (500) or targets (250).
